Emotional Intelligence Improve grades and relationships, reduce stress, build confidence, develop leadership skills and make college less stressful”

Why EI matters in college?

- Emotional intelligence predicted academic performance better than personality traits and cognitive ability among university students.
- Strong EI also makes better leaders and helps with career transitions.

What is the Emotional Quotient Inventory (EQ-i®)?

- It's a way to measure your EI skills, helps predict college success and is used widely (17+ years old).
- It takes 30 minutes online to complete the assessment.

Program Format

Step 1

- Pre-program EQ-i 2.0 On Line Assessment

Step 2

- 2 hours of highly interactive program to discover all the 15 skills of Emotional Intelligence (Parents can participate)

Step 3

- Post program Individual coaching debrief and action plan

The Student Comprehensive Report, spanning 17 pages, covers results and strategies for 15 sub-scales. It helps students understand their assessment results during a session with an EQ-i certified advisor.
